

AMAL أمل

Welcome to our RegaloBar (please write it ever like this = RegaloBar). Based on my project anyfree.org I had the wish long time ago to open social spaces for “donation without expectation”.

How it works | What is the aim | How to participate

As part of our exhibition “AMAL (=hope)” we open this RegaloBar every Saturday and Sunday from 10 to 12 am. The space is open for everybody and we welcome you with a cup of tea or coffee (for free!). We donate this as much as possible without any expectation. Inside of the bar we have some places with second hand household goods, some books, some toys, some technical stuff. All this is donated to the cloud of people (the people who enter this space), not to a specific person. The RegaloBar is the physical space of a common idea of a world of sharing and donating resources.

AMAL أمل

How it works | What is the aim | How to participate

The aim is to form a group of people who get used to think about what they need and what they could donate. It makes sense to identify people with the habit to donate. If we donate to these people, we charge them with resources they need. This gives people who donate a clear advantage. And this advantage will be recognized by others who will maybe join this group because of its advantage.

In Germany and northern countries of Europe there is the habit of donating embedded in the culture of its societies, in southern countries not so much.

There might be various reasons for this and we don't want to speculate about them. But we know that we run into a future not based on money. And to be prepared for this future we like to develop alternative currencies. Our currency here is donation without expectation. Sounds simple, but in

AMAL أمل

fact it turns out, that it is quiet complicate. Why? We think, most of the people are frightened about their future. They collect resources for a ugly, bad and risky future. They feel in a competition with others and they start to fight for every resource. This group is loosing a lot of energy for getting and protecting properties. In contemporary times people need to be more and more flexible..

In fact we are told in school that we developed a lot from ancient societies of collecting and hunting clans. But I think, we substituted only the subjects. If we return to a collecting and hunting society we have to ask, how we want to organize societies, even if 80% of our "jobs" are obsolete in a short time.

The first RegaloBar in Cervera del Maestre is focused of creating and maintaining a group of people who want to donate and want to get rid of fear. The RegaloBar is the physical hot-spot of the common idea > anyfree.org

AMAL أمل

How it works | What is the aim | How to participate

If you enter the space and if you like something, you are allowed to take it. If you have something left over and you like to donate this, bring it to the bar. We will publish in social media the status of our range of goods to take.

If you place or take something you agree in this:

- By touching and taking the good you get the property of it. This put all law and rights in place immediately!!
- You agree in taking photos from you and your new donation/property for expand the idea of this social movement.
- By placing the good in the RegaloBar you are still the owner. The resource belongs to your property, even if it is stored in the RegaloBar as long as nobody touch and take it.

AMAL أمل

- If you donate something to the “cloud of donators” you don't bind any expectation to this action. If you touch and take something, you have to fulfill no expectations of others.

The RegaloBar is a social space. You could invite people to come and enjoy the exhibition without bringing or taking something. Maybe you have a useful information or you want to share ideas. That is great. Stick your idea on our “wall of possibilities”.

Help us to grow the group of people who want to share resources. Use social media and publish as much as possible this location. Talk with your friends and return to the Bar, For sure the range of goods will be different at any time.

Thanks to Tina and Arlo for the “donation” of the name “RegaloBar”.
